You should therefore seek counter any disposition by government propose or favor any delay approval Rio Treaty resolution pending UN action or for any other reasons on following grounds:

(1) It appropriate US seek simultaneous action in UN both because Soviets as chief culprits are members and because failure do so would give Soviets opportunity take initiative there. Since UN consideration inevitable in any event, it important that initiative be taken by countries this hemisphere and thus help focus consideration matter on our terms. Moreover threat is one primarily posed to this hemisphere and therefore remains primary responsibility OAS deal with it vis-a-vis Cuba.

(2) While impossible predict how long debate in UN will last, it could be protracted, with probability counter resolution by 1960, consequent action in OAS would be delayed. Efforts should be made to consider and coordinate necessary measures. Moreover in view likely Soviet veto, possibility helpful SC action cannot be counted on.

(3) Meantime offensive missile capability already in Cuba and being expanded currently continues constitute serious threat to entire hemisphere. In interest self-preservation it therefore vital we take all necessary steps prevent increase that threat by preventing further Soviet deliveries including delivery nuclear warheads.
